At Brooklyn Herborium we take an integrated approach to beauty and holistic self-care, making your regimen and rituals both functional and lovely.

This method allows us to approach the skin from the outside-in, allowing your body the agency to regain and maintain vibrancy from the inside-out.

Our innovative skincare line,
Between You & the Moon, has been proven effective through over ten years of clinical use and client experience.

BIOME REHABILITATION MASK

A fresh and vibrant herbal blend that lovingly nourishes the “life” of our depleted personal ecosystems and helps to repair the skin's barrier.

Our Philosophy

Truly beautiful skin is not simply “under control,” but strong and vibrant on its own. When we provide for its basic needs, our skin does all the work from the inside out.

Following a daily regimen that meets our skin’s needs and implementing pinpointed rituals to enhance function allows us to break free from controlling cycles, leading to more radiant skin at every age.

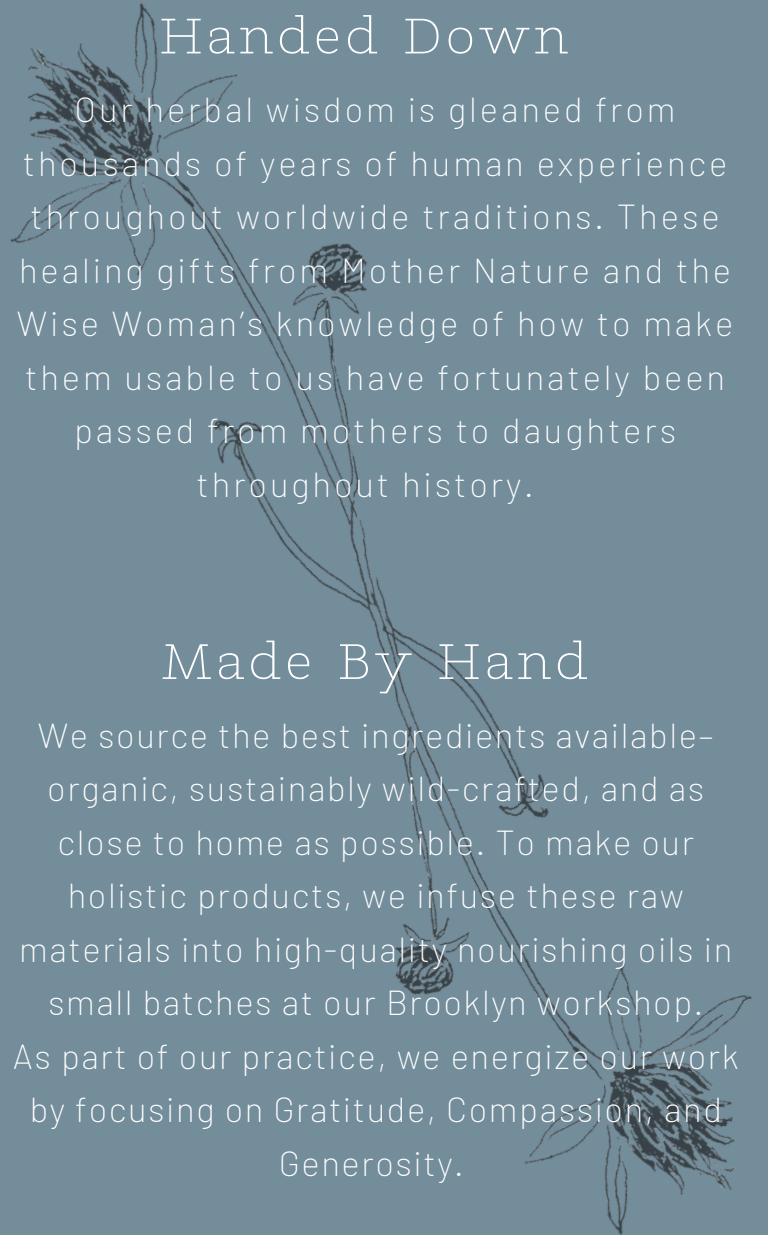

Handed Down

Our herbal wisdom is gleaned from thousands of years of human experience throughout worldwide traditions. These healing gifts from Mother Nature and the Wise Woman's knowledge of how to make them usable to us have fortunately been passed from mothers to daughters throughout history.

Made By Hand

We source the best ingredients available—organic, sustainably wild-crafted, and as close to home as possible. To make our holistic products, we infuse these raw materials into high-quality nourishing oils in small batches at our Brooklyn workshop. As part of our practice, we energize our work by focusing on Gratitude, Compassion, and Generosity.

Functional Line

Our Functional Skincare is formulated to work synergistically by mixing the individual elements together to create a regimen that meets your skin's topical needs and promotes healthy, functional, beautiful skin without the use of any artificial chemicals and preservatives.

MOISTURE DUO

A nourishing moisturizer without the need for emulsifiers and preservatives.

At Brooklyn Herborium,
we don't look at skin types
or try to change them.
Instead, we examine skin
conditions and seek to
discover the imbalance in a
person's skin-care or self-
care habits, helping them
return to equanimity.
